

# COUNTER GLASS DISPLAY REFRIGERATOR

## ISM-CGDR90

### STANDARD FEATURES

#### Rear sliding doors

- ✓ The magic cube shape design, combined with flat double-layer glass panels and internal top LED lighting, delivers excellent product presentation and enhances impulse sales in cafés, bakeries, and retail environments.
- ✓ Equipped with a digital thermostat and display, this unit ensures accurate temperature control, while the ventilated cooling system guarantees uniform temperature distribution across all shelves.
- ✓ Designed specifically for countertop use, the refrigerator features rear sliding glass doors for easy product dispensing and smooth service operation, even in tight back-of-counter spaces.
- ✓ Includes automatic defrost, adjustable chromed shelves (2 levels), and a separate power switch, ensuring simple daily operation, fast cleaning, and reduced downtime.
